The following points system will be used during the pool matches: Win: 3 || Draw: 2 || Loss: 1 || Forfeit: 0

Should teams be equal on points at the end of the Pool rounds the following will apply:

- The most victorious team from the pool game (i.e. head-to-head winner, if applicable)
- Then, the team with the best points differential will progress. (this is calculated by total points scored for (F) subtracted by the points scored Against (A). e.g. 150 points for - 60 points Against = +90)
- Then, if equal the team with the best percentages (total points scored for divided by total points scored against)
- Then, most tries
- Then, toss of a coin
